T. VAMSHI

Final-Year B.Tech Student — Computer Science & Engineering
Hyderabad, Telangana | tvamshi2007@gmail.com | +91 90149 90131 | GitHub | LinkedIn

SUMMARY

Final-year Computer Science student with a build-first approach to software development, specializing in full-stack web development and AI-integrated applications. Experienced in shipping complete, production-ready projects — from React-based platforms with live code execution to responsive portfolio sites — using modern JavaScript frameworks, Python, and cloud deployment. Seeking a Software Development / AI Engineering internship to apply and grow these skills in a real-world engineering environment.

EDUCATION

B.Tech, Computer Science & Engineering Expected 2027
Brilliant Grammar School Educational Society's Group of Institutions

PROJECTS

EDU TECH — Placement Preparation Quiz Platform Repo

- Built a feature-rich React + Vite web application for placement preparation, including user authentication, daily quizzes, and live leaderboards.
- Integrated the Piston API to support real, multi-language code execution and scored assessments directly within the platform.
- Iteratively refined the app from a static landing page into a fully interactive product and deployed it to production on Vercel.

SKILLS

Languages & Frameworks: JavaScript, React.js, Python, Django, HTML5, CSS3

Tools & Platforms: Git, GitHub, VS Code, Vercel, REST APIs

Concepts: Data Structures & Algorithms, Full-Stack Web Development, API Integration, LLM-Integrated Applications

Soft Skills: Teamwork, Time Management, Problem Solving, Self-Motivation, Communication

ACHIEVEMENTS & PRACTICE

- Solve algorithmic problems on LeetCode regularly, with a focus on writing concise, efficient solutions (e.g., coordinate compression and union-find techniques for graph problems).
- Completed technical learning programs and hands-on project-based internships in web development.
